

# GuardUV

## Portable UV Photomax Air Purifier

FOR COMMERCIAL & RESIDENTIAL APPLICATIONS

MADE IN  
THE USA

Cleaner, Healthier Indoor Air  
Breaks down Odors, VOCs,  
and Toxins, Kills Bacteria and Viruses  
Reduces Allergens

### Robust Technologies

#### UV Light - Nature's Disinfectant

Since about 1930, UV light has been used to disinfect air, water, and surfaces. It penetrates microbes and disrupts their DNA/RNA. It has a technology recognized as effective by the American Society of Heating Refrigerating and Air-conditioning Engineers (ASHRAE), the CDC, and the EPA.

#### Photocatalytic Oxidation (PCO) Air Purification with Activated Carbon

Contamination is captured by the activated carbon panel. The carbon is infused with a patented titanium dioxide (TiO<sub>2</sub>) with silver and zinc formulation. The PCO process breaks down odors, volatile organic compounds (VOCs), and allergens while inactivating microbes.

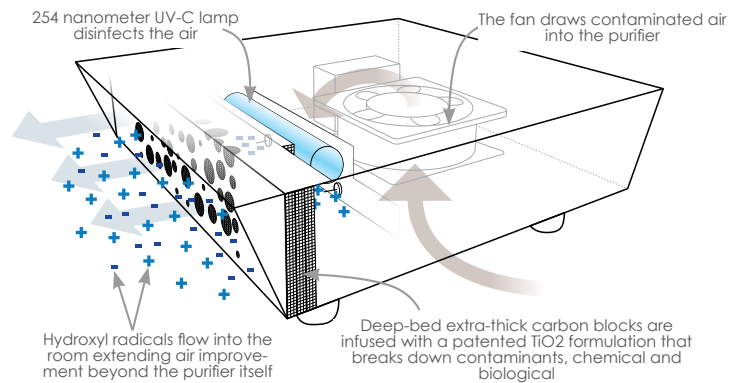

# safe-T GuardUV

## Portable UV Photomax Air Purifier

FOR COMMERCIAL & RESIDENTIAL APPLICATIONS

**Safe-T GuardUV Portable UV Photomax Air Purifier**  
 Converts complex air contamination back to normal air components

### POWERFUL | COMPACT | PORTABLE

Goes beyond ordinary filtration to destroy air contamination at the molecular level

Deodorizes

Kills bacteria and viruses

Breaks down smoke & toxic gases

Reduces allergens

### APPLICATIONS

#### COMMERCIAL

- Restrooms
- Kitchens
- Musty basements
- Laundry areas
- Offices
- Medical centers
- Beauty salons
- Veterinarian offices
- Waiting rooms and gathering areas

#### RESIDENTIAL

- Cooking odors
- Bathroom odors
- Personal gyms
- Locker rooms
- Pet areas
- Dorm rooms
- Workshops
- Renovation areas
- Bedrooms
- Garage
- Laundry

### Portable Air Purifier Features

- Commercial-grade Stainless Steel outer cabinet with steel chassis
- Self cleaning, the carbon blocks are continually restored by the PCO process and need no maintenance
- No Ozone produced
- UL 2998 compliant
- Compact: 9"x 9" - 3" high
- Quiet fan
- Washable pre-filter
- Low power consumption
- Covers areas up to 800 sq ft
- Plugs into standard 110VAC outlet; hardwire available
- Wall mount option included
- Part # STG-UVP
