### Base Assembly

### Table Assembly

**ATTENTION: Due to sensitive nature of the stainless steel, use extreme care when assembling a base to avoid accidental dents and scratches.**

### Instructions

#### Base Assembly

Place mounting plate on top of a column and align holes in the column and mounting plate. Insert lock washers inside the bolts. Start the bolts by hand first, then tighten with a wrench.

#### Table Assembly

1. Lay table top upside down on cardboard or carpeted surface.
2. Position assembled bases on the top and align holes in mounting plate with pre-drilled holes in the top. Use wood screws to attach the top. Use every hole in the mounting plate.
3. Holding onto the edges of the top, carefully turn the table over in the upright position.
4. Level your table by rotating the leveling glides.
5. Use stainless steel cleaner and soft cloth to remove finger prints or stains from the base. Enjoy your table!
