**Power & Data**

Overview

# ■ Need Power & Data?

## We Make Power Easy from Start to Finish.

Choosing the right electrical unit for tables can be a challenging process and the key to do it right is identifying your needs and knowing available options.

The **Overview Chart** on the opposite page lists all units and their unique attributes at a glance. It provides quick comparison between them listing suggested application, similarities and differences.

Consider these questions when selecting your power unit:

### What is my application?

Training, collaboration, meeting or conference

### Do I need only power, data, USB or a combination of options?

Most featured units provide one or two power receptacles and one or two USB slots in two to four windows. If you require more options, please contact Customer Service.

### Do I need a convenience outlet?

Convenience outlet is an additional power receptacle located in the base of the electrical unit under the table.

### Do I need data ports or telecommunications ports?

Several power units offer data and telecommunication plates that can be customized for Ethernet, HDMI, USB-C, VGA, Audio, and other AV applications.

### Do I need to power multiple tables that will be linked together?

Our Customer Service will be happy to provide information and price on Daisy Chain configurations. Since each project is unique, please provide room dimensions, table layout, and the position of electrical outlets in a room.

### Do I need to add power to existing tables?

Above Surface units can be easily added to already existing tables. They mount on a side of the table top with a clamp-on attachment and can be used with any Special-T table. In Surface units integrate into a table through a cutout in a table surface.

### Do I need wire management?

To keep your cables concealed and organized, we offer several options for vertical and horizontal wire management. Refer to back of brochure for full selection.

If you have additional questions or would like to speak with our Power and Data specialists, please call 888-705-0777 and we will be happy to assist you.

# Ashley Duo Air™

The intelligent design behind the Ashley Duo Air yields an attractive cover that pops open to reveal an integrated wedge of power outlets and USB ports. Equipped with a cushioned, gas strut mechanism for discreet and dependable use, Ashley Duo Air opens and closes quiet as “air”. The metal bezel and plastic face are available in several color options.

## Options

- 2 Power/ 1 USB Duplex

## Description

- 15 Amp Power and 2.1 Amps Per USB Port
- Trim Colors: Black, Silver, White;
- Plastic Colors: Black, Grey, White, Harvest Pumpkin, Neon Red, Blue Daisy, Light Green
- In-Surface Orientation For Clean Aesthetics
- 72" Plug Power Cord

The Ashley Duo Air's USB charging is UL 1310 recognized, Class 2, FCC Part 15A approved, as well as, meets UL spill requirements and USB.org Battery Charging 1.2 Description.

### Standard Metal Trim Finishes

### Standard Plastic Colors

# Burele™

Burele brings customizability to a new level. That's why it lives up here on the worksurface—where work gets done. It offers blended power options, including USB ports for phones, tablets and more. Sleek, high-gloss plastic finish can be personalized with color, artwork, messaging... whatever inspires you. It's your power, after all.

## Options

- 2 Power - Quick Ship in Black and White Colors
- 1 Power / 1 USB Duplex

## Description

- Colors: Black, Silver, White
- Removable above-surface mount
- 72" Plug Power Cord

## Custom Features - Contact Customer Service

- More finish options
- 120" Plug Cord Options

Cove is a surface flush mount charging solution designed to seamlessly integrate power, USB, and data ports in any worksurface. Available in many configurations, the Cove accommodates every application from small occasional tables to large conference tables and everything in between. Durable metal construction.

## Options

- 2 Power
- 2 Power / 1 USB Duplex

- 15 Amp Power Per Outlet and 2.1 Amp Per USB Port
- Grommet Colors: Black, Silver, White
- In-Surface Orientation For Clean Aesthetics
- 108" Plug Power Cord

## Custom Features - Contact Customer Service

- More finish options
- Various configurations of power and USB ports in up to 8 windows
- Daisy Chain - A convenient way to link multiple tables together from a single power infeed
- Convenience Outlets

# Dean™

Sleek and understated, Dean's low profile and smooth, easy-to-clean surface doesn't pull attention away from other workplace elements. Dean's powder-coated trim and coordinating plastic faceplate are offered in a range of colors, for just the right amount of design impact.

## Options

- 2 Power
- 2 Power / 1 USB Duplex

## Description

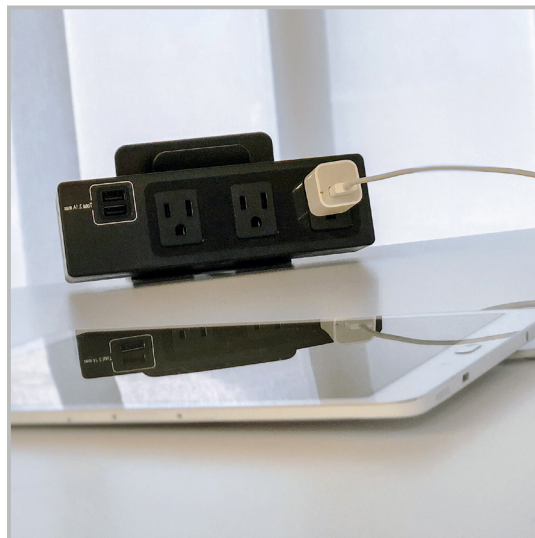

- 15 Amp Power and 2 Amp per USB Port
- Plastic Colors: Black, Grey, White
- In-Surface Orientation For Clean Aesthetics
- 72" Plug Power Cord

## Custom Features - Contact Customer Service

- Daisy Chain - A convenient way to link multiple tables together from a single power infeed
- Various configurations of power and USB ports in 2 - 5 windows
- More finish options
- 72" Hardwire and 120" Plug Power Cord options

# ■ EZ Power

With a simple clamp-on attachment the EZ Power can easily integrate into already existing worksurfaces. Convenient tablet or phone holder is built into clamp mount to keep your desk organized. 3 power outlets and 1 USB duplex provide the flexibility to keep all your devices properly charged.

## Options

- 3 Power / 1 USB Duplex

## Description

- 3 AC 15 Amp Receptacle & 3.1 Amp Combined USB Duplex
- 96" Plug Power Cord
- Surge Protection Up To 510 Joules
- Colors: Black, White
- Removable Above-Surface Mount
- Quick Ship

# MhoB™

MhoB boasts endless creative possibilities and a durable, streamlined construction that makes it more affordable than ever. MhoB's one-touch, retractable door design allows it to remain open during use for easy access. It even offers a variety of power/USB options with 2, 3, or 5 Port configurations.

## Options

- 2 Power
- 2 Power / 1 USB Duplex

## Description

- 15 Amp Power and 2 Amp per USB Port
- Colors: Matte Black, Matte Gray, Matte White
- In-Surface Orientation for Clean Aesthetics
- 72" Plug Power Cord

## Custom Features - Contact Customer Service

- Daisy Chain - A convenient way to link multiple tables together from a single power infeed
- Configurable With 2, 3, and 5 Windows
- 72" Hardwire and 120" Plug Power Cord Options
- Telecom Options

# Nacre™

These days, it seems any surface can be a worksurface—but only when you want it to be. That’s why Nacre keeps a low profile but rises up when needed to reveal a dynamic range of power and data configurations, including the new USB-C to charge phones, tablets and other devices. With a clean surface-mount design Nacre is happy to keep things subtle.

## Options

- 2 Power
- 2 Power / 2 USB Duplex

# Configure Unit

The online configurator is a quick and easy way to specify and price power.

- Visit SpecialT.net
- Select a table and click on **CONFIGURE**
- Select Power and Data option
- Select Wire Management option
- Call (888) 705-0777 with any questions

The screenshot shows the online configurator interface for the Burele power unit. At the top right, there are navigation buttons for "BACK" and "NEXT". Below these are breadcrumb-style navigation links: "TOP OPTIONS", "BASE OPTIONS", "OTHER OPTIONS", and "SUMMARY". Under "OTHER OPTIONS", several sub-options are listed: "Acrylite Privacy Screen", "Grommet", "Vertical Wire Management", "Horizontal Wire Management", "Power/Data Management" (which is highlighted), and "Table Joiner". A "PDF View Brochure" link is also present.

The main configuration area is titled "Burele" and is divided into two sections: "ABOVE SURFACE" and "IN SURFACE".

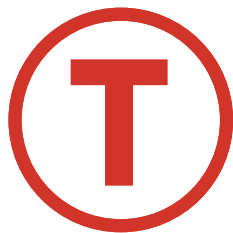

**ABOVE SURFACE** options include:

- No Selection: Includes a "YES" checkbox (unchecked) and a "NO" checkbox (checked) with a pencil icon.
- Hole Cutout: Shows a person using a tool to cut a hole in a wooden surface.
- Burele: Shows a white power outlet with two outlets.
- EZ Power: Shows a black power outlet with a power strip attached.

**IN SURFACE** options include:

- Ashley Duo Air: Shows a white power outlet with two outlets.
- Cove: Shows a white power outlet with a power strip attached.
- Dean: Shows a black power outlet with two outlets.
- Nacre: Shows a white power outlet with a power strip attached.
- Node: Shows a white power outlet with a power strip attached.
- Mho B: Shows a black power outlet with a power strip attached.
- Villa: Shows a white power outlet with a power strip attached.
- Qi Wireless Charger: Shows a white power outlet with a power strip attached.
