

MOSAIC GRID SHELVING

Key Benefits

Built on a 40×40 cm grid, Mosaic Modular Shelving delivers sleek, space-saving solutions without compromising functionality.

From statement displays to cable-managed storage and office dividers, its compact footprint supports a wide range of applications.

- Extensive customization options
- Modular grid design
- Quick and easy assembly
- 12-week lead time

Assembly Made Simple

Our patent-pending connection system makes assembly tool-free and effortless. Simply press the knurled connection pin into the ladder post, slide the rail on until it clicks, then secure it with the pin clip.

Disassembly is just as easy. Release the pin clip with a flathead screwdriver and separate the ladder and rail.

Choose Every Detail: Finishes

Frame:
Scandi White, Industrial Raw Steel, and Refined Anthracite.

Panels:
Graphite, White, or Oak, with optional fabric infill panels in a variety of colors.
