AIM EZ Desking
Desking Systems

LET'S GET BACK TO WORK SAFELY!

AIM EZ DESKING
OPEN PLAN WORKSTATIONS
WITH INTEGRATED
AIR PURIFICATION SYSTEM

AIM EZ Desking is a stylish, adaptable, and affordable solution perfect for growing businesses. It presents a blend of style and functionality, ease of specification and value. Accommodate your growth and maximize person-per-room ratio with the system's add-on capabilities.

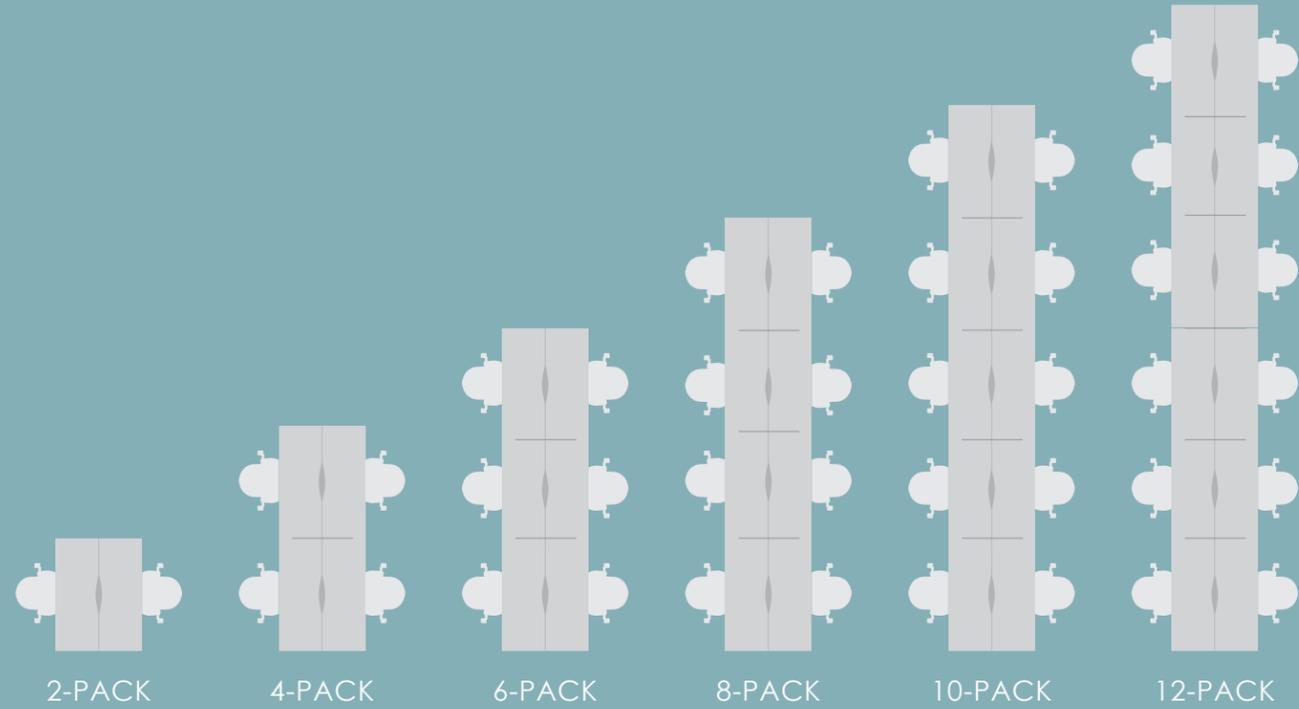

Open plans can remain open while being safe. Strategic placement of air purification throughout the workstations and 360-degree intake at mouth level is the most effective protection from mouth exhalations.

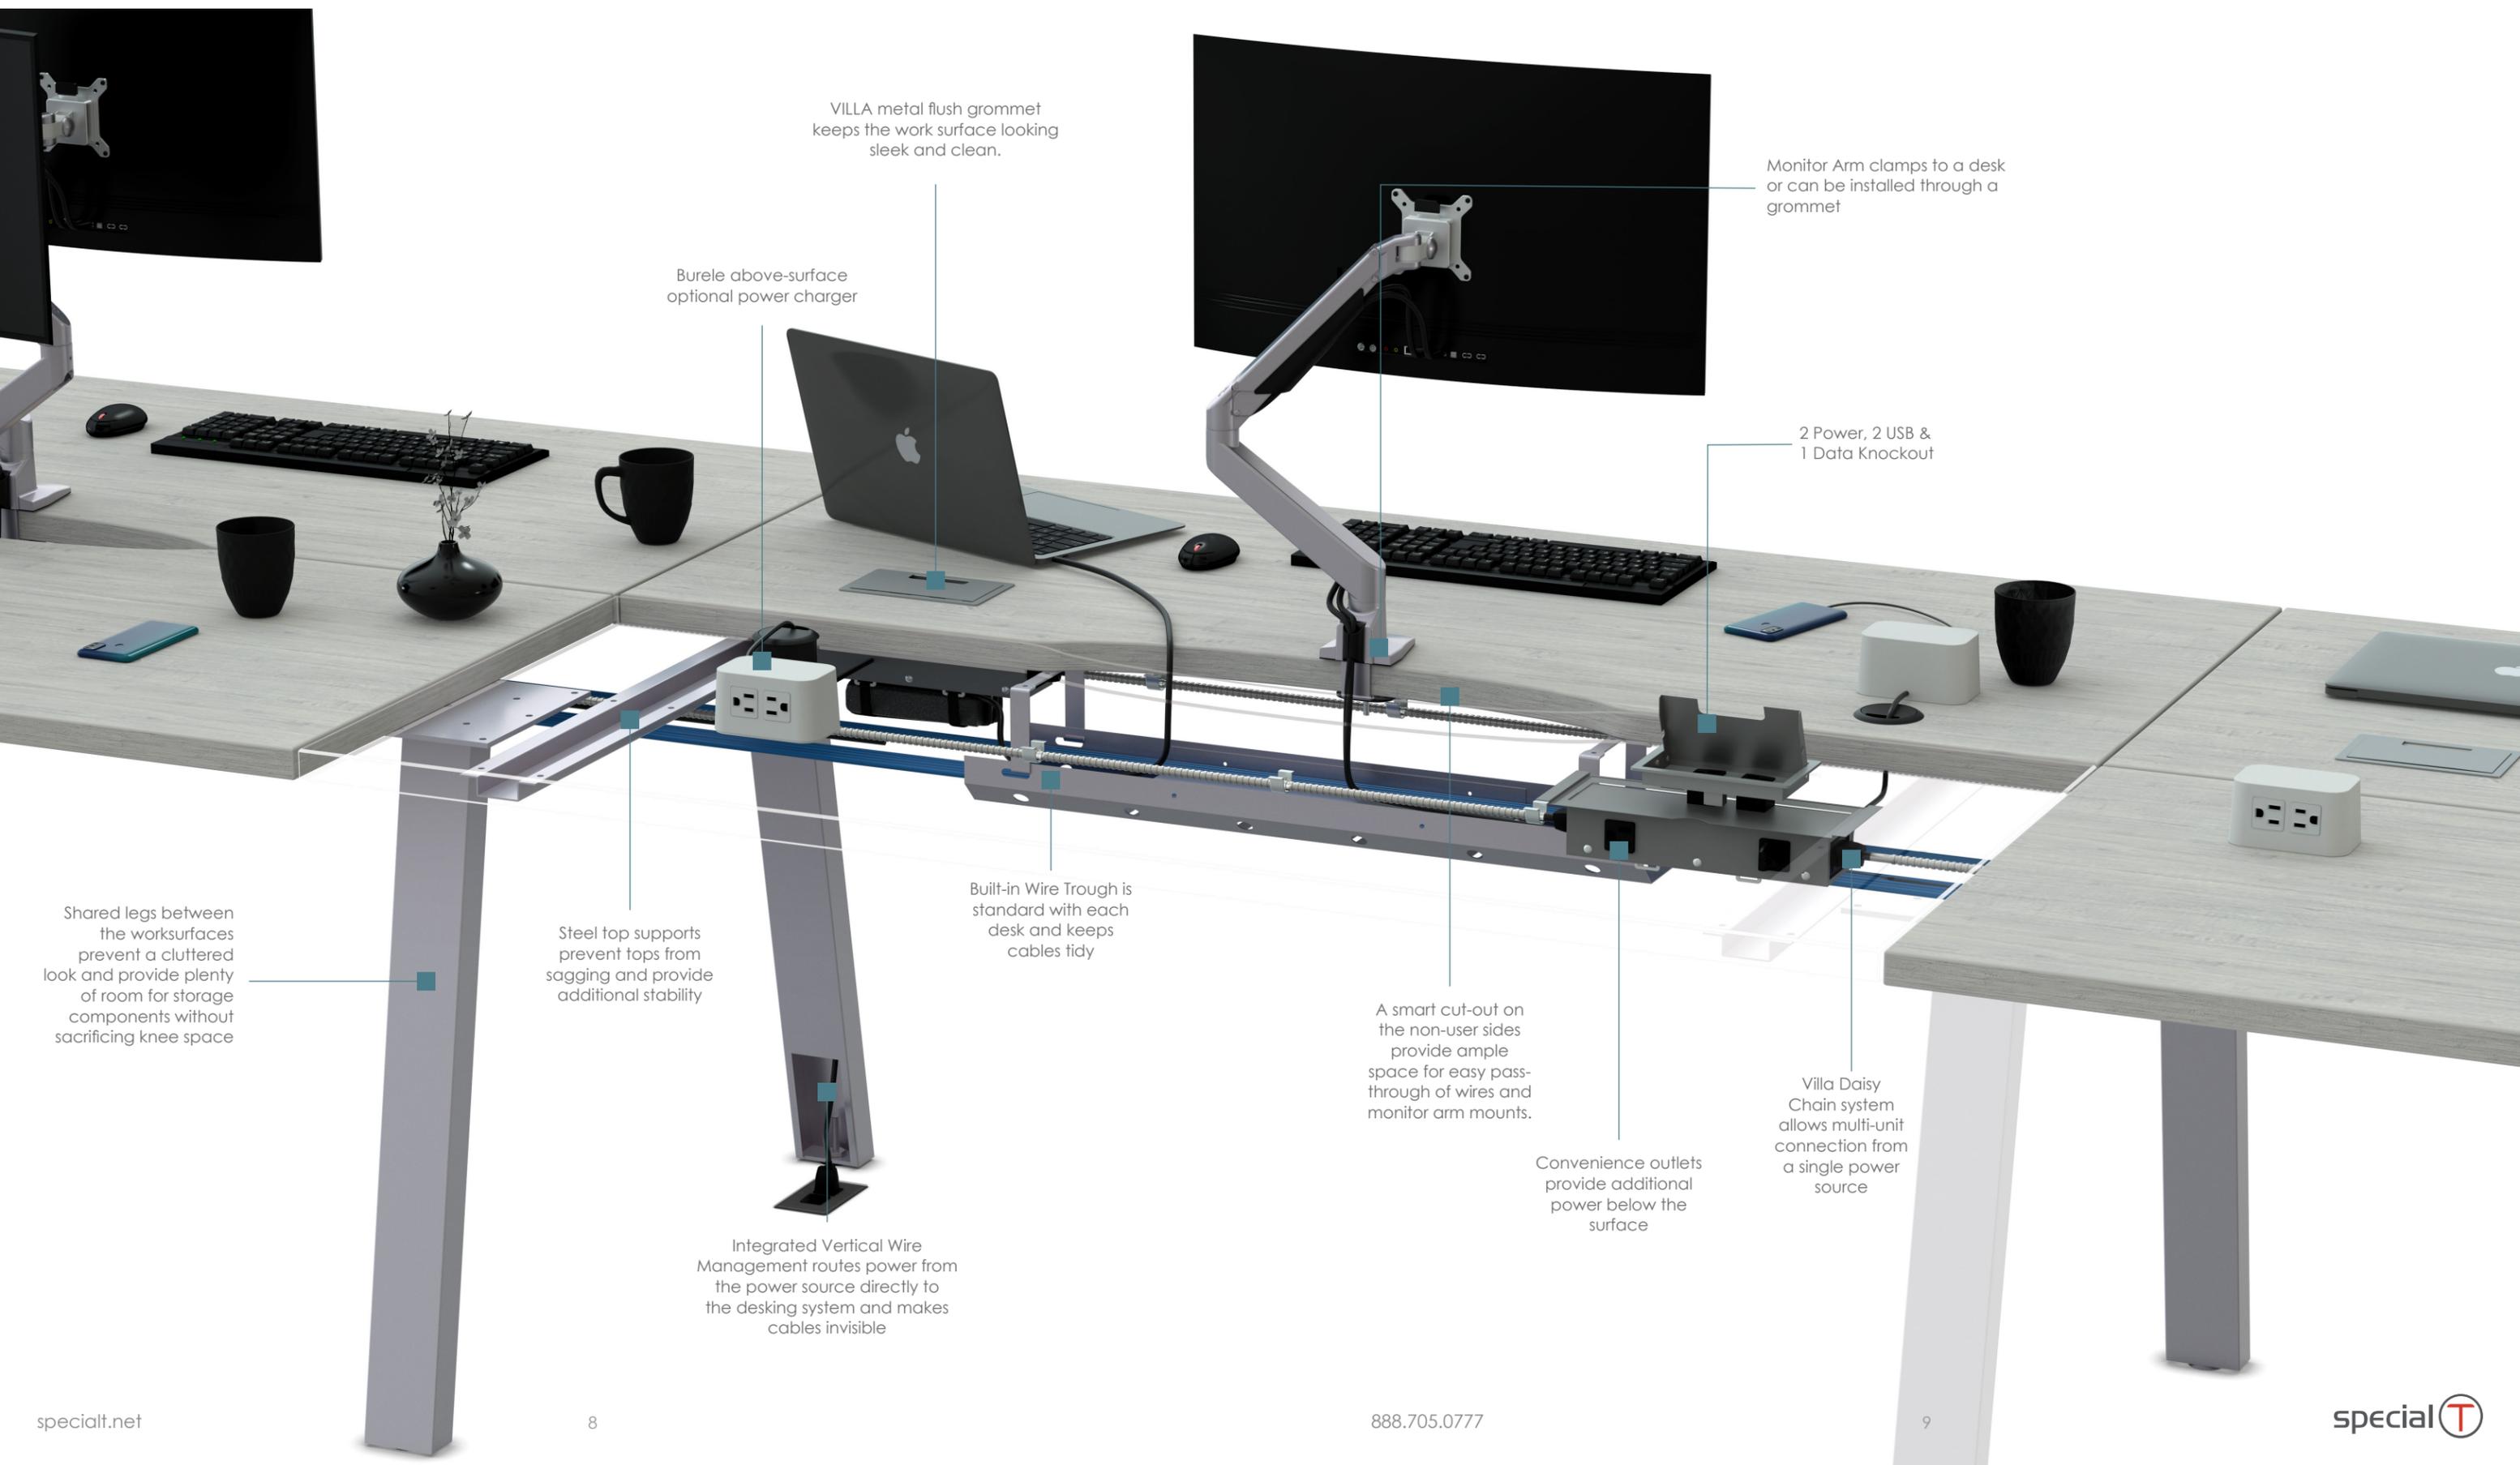

AIM EZ DESKING. WORKING SAFELY TOGETHER.

A BLEND OF STYLE, FUNCTIONALITY & SAFETY

Numerous configuration options, various electrical and wire management solutions, dozens of base and top color choices offer freedom to customize AIM EZ Desking to adapt to your space and fit your needs.

VILLA metal flush grommet keeps the work surface looking sleek and clean.

Monitor Arm clamps to a desk or can be installed through a grommet

Burele above-surface optional power charger

2 Power, 2 USB & 1 Data Knockout

Shared legs between the workspaces prevent a cluttered look and provide plenty of room for storage components without sacrificing knee space

Steel top supports prevent tops from sagging and provide additional stability

Built-in Wire Trough is standard with each desk and keeps cables tidy

A smart cut-out on the non-user sides provide ample space for easy pass-through of wires and monitor arm mounts.

Convenience outlets provide additional power below the surface

Villa Daisy Chain system allows multi-unit connection from a single power source

Integrated Vertical Wire Management routes power from the power source directly to the desking system and makes cables invisible

INTEGRATED POWER

Built-in VILLA DaisyChain system delivers seamless integration of power, data, and USB to each desk and keeps your devices powered throughout the day. Two convenience outlets under surface offer an additional source of concealed power access.

Power is distributed to workspaces from one infeed on each side

2 Power, 2 USB & 1 Data Knockout above the surface with a flush lid cover

2 Convenience Outlets below the surface

ABOVE SURFACE POWER

Bring additional power to the surface with a simple clamp-on attachment.

BURELE

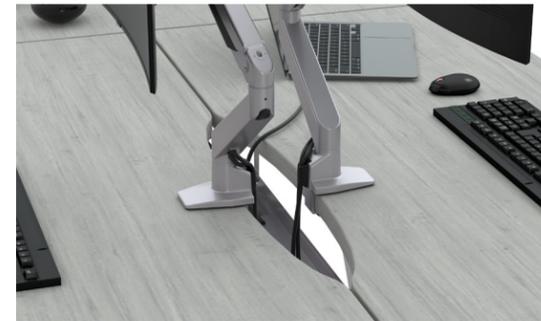

2 Power or 1 Power / 2 USB | Color: grey, black, white

EZ-POWER

3 Power / 2 USB | Color: black, white

Wire Management options keep your work surface uncluttered and cables organized under the desk.

SMART CUT-OUT

on the non-user sides provide ample space for easy pass-through of wires and monitor arm mounts.

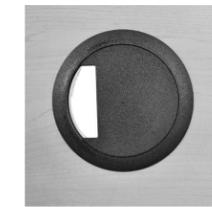

BUILT-IN WIRE TROUGH

Keeps cables tidy.

RECTANGULAR GROMMET

ROUND GROMMET

INTEGRATED VERTICAL WIRE MANAGEMENT

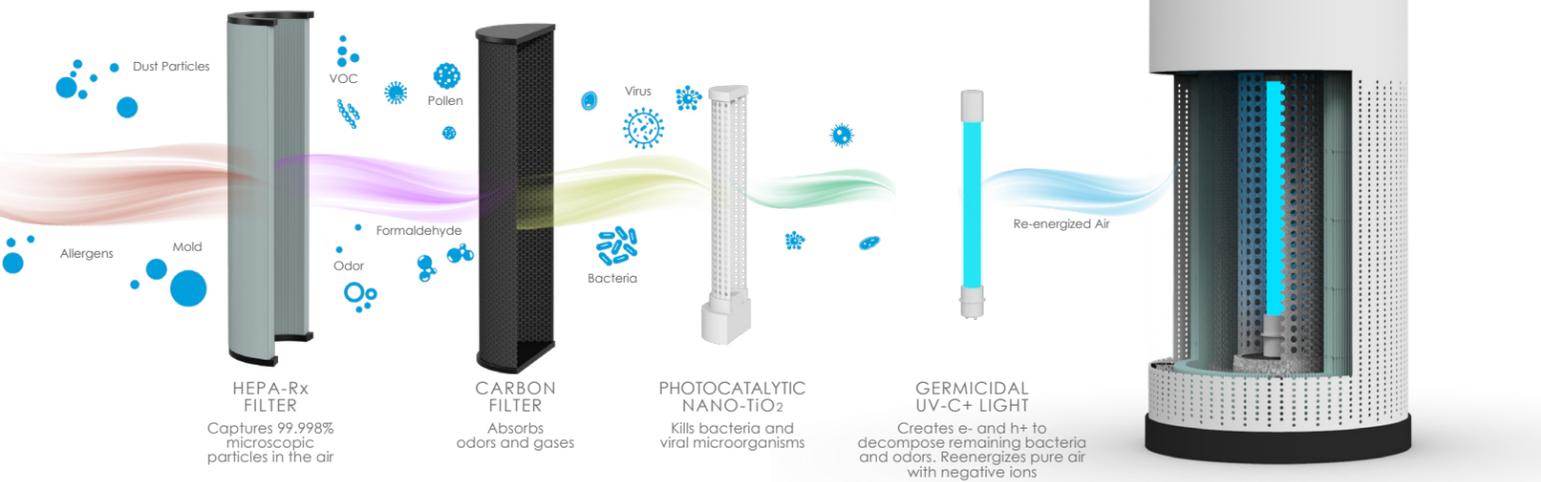

SPINE WIRE MANAGEMENT

Conceals and carries wires from under desk to floor. Screws under desk and comes with a weighted base.

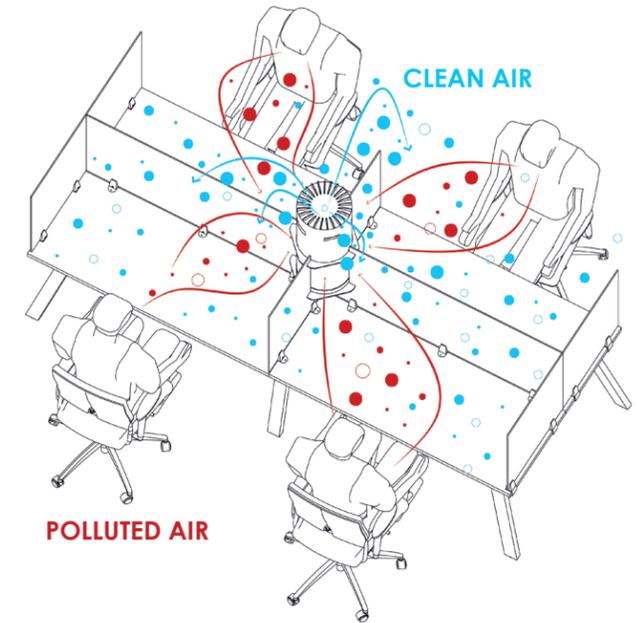

PROTECT YOUR EMPLOYEES, REMOVE 99.998% OF VIRUSES, BACTERIA & FUNGUS WITH SAFE-T AIR PURIFICATION SYSTEM

Safe-T Air Purification Systems offer superior air purification through sophisticated filtration systems, high volume airflow capacity, and lower sound levels that do not disturb a productive work environment. The premium commercial grade air purification system is capable of filtering 24,150 cubic feet per hour at the industry's lowest noise level under 55 dB.

As the air is drawn through the bottom of the unit, it passes through the HEPA-Rx Filter, the Activated Carbon Filter, and the Germicidal UVC+ Photocatalytic Nano-TiO₂ chamber. At the final stage, the purified air moves through the Revitalizing Negative Ion Generators near the air outlet and releases negative ions into the air.

Strategic integration of air purification in the workstation, 24" and 30" high barriers, and the 360-degree air intake at mouth level provide the most effective protection from polluted air and mouth exhalations. Exhaled air gets pulled into the air purification system located within an arm's reach before it spreads to other work areas.

AIR PURIFIER STANDS

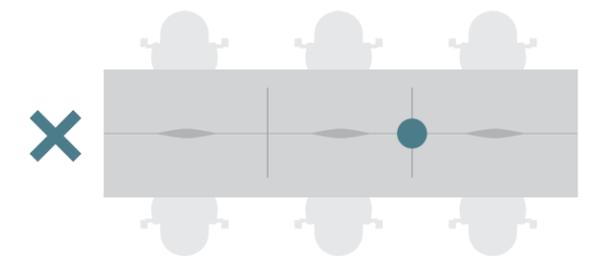

Place additional air purification units on a stand to raise the air intake to mouth level. When distributed strategically throughout the space, you ensure that harmful exhalations along with floating in the air pollutants are captured from anywhere in a room before spreading to other team members.

AIR PURIFIER ON STATIONARY STAND

AIR PURIFIER ON MOBILE STAND

- AIR PURIFICATION BUILT INTO SCREENS
- ✗ AIR PURIFICATION ON A STAND

SCREENS

Extended height Safe-T screens in Clear Plexiglass, Frosted Acrylic, or PET material. Create privacy and wellness barriers in the workplace. Screens available in 24" or 30" height.
