Standard Table Features

Special-T tables are manufactured from the highest quality products possible meeting or exceeding ANSI/BIFMA standards.

Table tops feature 1-1/8" thick 45 lb. density particle board core, high pressure laminate, durable vinyl, wood or urethane edges, and .038 balanced backer sheet on less than 48" tables (.038 phenolic backer equal or greater than 48"). The finished top thickness is 1-1/4".

High quality high pressure Standard WilsonArt laminate is applied to all our tops. Premium laminates are available for an additional charge.

A wide selection of **table edges** and **edge colors** are available. The edges include durable vinyl, wood, and urethane edges.

Most tops are **pre-drilled** for easy installation. To prevent tops from sagging, all tables 60" or longer that are sold without a continuous beam base include a **steel table support**.

The **table legs** are fabricated from high quality tubular steel, stainless steel, cast aluminum or cast iron. All tubular steel bases are available in 20 powder coat finishes at standard price. Color matching is available, up-charge may apply. Some bases are also available in polished chrome and stainless steel finish. Leveling glides are standard for most tables. Tables legs ship knocked down and are easy to assemble.

The standard table height is 29"

Special-T's dedication to the future of our environment is demonstrated in our products, Special-T products have passed MAS Certificated Green™ Indoor Air Quality stringent testing and is compliant with BIFMA X7.1, LEED, CDPH, and SHPS standards*.

(Wood edges are not MAS Certified Green™)

Special-T offers a **5-Day Quick Ship** program for any rectangular, round or square table to ship in 5 business days after acknowledged date. Choose from 14 Quick Ship laminates and edge colors used in any combination. All edges are square corner 3mm PVC edge (-P3) To specify, **add 5D.** to the front of the table part number.
